

# THE DEFINITION OF

## HAILE SELASSIE CREED REPATRIATION REPARATION ECONOMY INITY

### THROUGH THE LENS OF R.U.N.

#### **1. Haile Selassie**

His Imperial Majesty Emperor Haile Selassie I speeches, his life and perfect example, are the guidelines for the R.U.N.

Inl goals and action will always follow His Imperial Majesty Emperor Haile Selassie I teachings.

#### **2. Creed**

Let the hungry be fed, the naked clothes; the sick nourished; the aged protected, the ignorant gain knowledge, and the infants cared for.

We also aim to be a helping hand and a strong support for the international Rastafari community.

#### **3. Repatriation**

Africa is for Africans at home and abroad. As a part of the Rastafari Nation the R.U.N. will always be a strong voice on this topic and support any action toward reaching this goal. To make repatriation possible for every African in the world, we believe in the idea of building an international and economic network. Prince and Princess must trod out of Babylon.

Repatriation is in Inl view also part of the recognition process for all indigenous people worldwide. We see the Rastafari Nation as such and will work towards this recognition.

#### **4. Reparation**

Reparations for the damage caused by the colonial slave trade and the plundering of Africa by Western countries must be done as a fundamental condition to make Repatriation possible.

Working toward this goal, by building an economy in our region and supporting the worldwide community in this endeavor, is a cornerstone of the RNS.

#### **5. Economy**

Our goal is to build an economy that enables self-sufficiency while also supporting global projects. This will enable members in this country to exist outside of Babylon, while still being an active part of building the global nation.

Our idea of an economy is to use talent and knowledge in such a way that flows of money and information can be regulated internally. To this end, projects are created that help support the community and secure its opportunities to pursue social and economic goals.

#### **5. Inity**

The aim is to ensure smooth collaboration between different houses and organizations within the nation. Furthermore, platforms should be created where controversial topics can be discussed.

An Inity Office is available to anyone who recognizes, experiences, or has experienced any kind of difficulties. As impartial office, it should serve to solve problems of any kind rationally and make sure no one is left behind.
