Attendee Youths: Swanny, Joshua,Bernayah,Jamani,Safayah,Binghi,Thalia, Alton

Greetings and give thanks to Everyone who made this gathering possible.

Saturday – welcoming of the ones in the House in Rte de la Gare 19, Mollens – Valais Switzerland – in the Heart of the Alps..

Ital Food ready with some Jamaican Sip (one special one for InI bobo bredda Ricardo and one for the general InI with Yam , pumpkin and other running plant and a little salt...).

Ones and Ones reach, some went for a walk, time passed and the programm to speak about the organisation RUN itself never happened on the Saturday … A lot of personnal reasonings as the ones happy to meet with InI….The program started directly by SweetRasArni's farming presentation, on a projector and with a mic. Bredda SweetrasArni shared with InI a very interesting conference about "La Ferme du Château" projects and shared with InI some facts and numbers, as the farming is very important for InI Nation. Give thanks.

Ital Ethiopian Food ready for diner with some injera . InI eat and feel Irie.. Some brown pasta as well , pak choi and lentils...salads

Nyahbinghi chanting started in the evening, never last too long as we really thought the sound system would play until midnight... InI would chant some more in the night. But the vibes was too nice for the artists them Ras Karma-King Jo-Binghi Pelé-Baba Fayah student...Asher Selecta and Heartikal Inity Sound (Sweet RasArni) vibes up di place and InI manage to stop the sound around 3am… Bredda Roberto was a bit disappointed and complained about the late music. Even complain to Asher directly…. InI over did it. I asked him later on Sunday if in a futur gathering InI should not have the soundsystem. He said that if most ones like this he doesn't want to break that vibes but the music should have stopped earlier. As it was planned...

On the Sunday, InI woke up early to get ready the breakfast (sista Caro-Robin-RasMalo helped InI), boulgour porridge, fruits salad, many homemade breads and jam,honey…. tea – coffee all days long…

Reasonings amongst the ones and ones…

I personally forgot to ask Matthias to do his presentation about the Coronation that was also planned , and no one neither him, remind I of this.. InI need to be up to what InI say, if there should be a presentation and my head busy with some other reasonings or organisations. It would be best that the one who has something to present, organise and call everyone if he see that I am busy...or not even considering, for future guidance….give thanks

About 11am InI made a together's reasoning. Hailing the King of all Kings and Empress Menen I, and reasoning about the RUN aim and actual works, what take a good amount of time..Sista Caro and Bredda Robin made a presentation about the Gathering in Germany and bredda Malo mentionned organizing one small one in France..

InI took that time also to honor InI Incient Bredda Asher Selecta, for his role spreading conscious music from over 35years. With his Positive Airline Sound, something that motivate and strengthen many of InI to do more work! He also supported many Ones in their charity projects, like he did for Fana Fan d'Afrique and many more…. This moment was a special "touching moment" for the Ones and Ones who were able to Big him up as well! Like Ras Shabbs or Souljah Daniel and many other.. An unforgettable moment! InI need to acknowledge the Incients who pave the way, and that WILL stay in the heart of all of INI.

We seal off by saying that the next aim is the 10th ofJanuary 1st Year or R.U.N. Celebration Gathering

InI ate some Vegan or Ital lasagna,well cooked and frozen from a few days...make it easier for everyone to be part of the reasoning. InI ate around 1-2pm, after ones and ones started to leave..

Individual reasonings and sending homes, continue until evening, sound system music was playing by Florine..

Bredda Jackayouths and Florine packed up the sound system, with help from InI, we then ate some more lentils and injera, pak choi,,,,InI were a few for the dinner and the evening.

InI chant some more Nyahbinghi, also ina bobo Style as bredda Roberto was there, a positive evening of chanting and more reasonings..

Monday , Hearts of Celebrations 2nd of November within the Irites, woke up early as the German's family got ready to leave, Bredda Roberto ready to take the plane to Belgium, and Bredda Leo ready to reach SweetRasArni's farm.. InI cleaned up the place, our driver got lost for 2 hours and finally InI reached home about 2pm. The Ilabration continue and all of InI in our homes saw online the Gatherings around di world celebrating His Imperial Majesties's Coronations, for some, 9 lights of Nyahbinghi Chanting - One perfect love to One and ALL!

Lioness Cristal , PRO of the Rastafari United Nations R.U.N.
